About

What is the Charm City Circulator All About?

The backbone of any great city is transportation. That's why we're introducing the Charm City Circulator (CCC), a fleet of 21 free shuttles that travel four routes in Baltimore City.

We service residents, downtown employees, students and tourists and anyone else who wishes to ride. The shuttle is intended to reduce congestion and greenhouse gas pollution by offering a convenient, reliable and eco-friendly form of public transportation.

The CCC consists of four separate routes—the Green Route which runs from City Hall to Fells Point to Johns Hopkins, the Purple Route which runs from Penn Station to Federal Hill, the Orange Route which runs from Hollins Market to Harbor East and the Banner Route which runs from the Inner Harbor to Fort McHenry.

We're not only dedicated to offering a stellar form of public transportation that links critical parts of the city—we are interested in doing it in the cleanest way possible. That's why we've chosen 21 DesignLine 2009 EcoSaver IV LF Hybrid Electric vehicles—the first fleet of this type in a major metropolitan area. The Charm City Circulator was a part of former Baltimore Mayor Sheila Dixon's vision of a "cleaner, greener Baltimore."

We encourage all of our residents and visitors to use this service—not only is it free, it's efficient. A shuttle arrives every 15 minutes at the designated stops on each route.

Use it as your connector to your regular train, bus or commuter lot—or just to get a taste of all Baltimore City has to offer.

Operated by  in partnership with the Baltimore City Department of Transportation
